

SENSITIVE  
INFORMATION

"direct heat transfer" and adding "power system." It is submitted that claims 2-4 as amended overcome the Examiner's 35 USC § 112 rejection.

It is submitted in view of these remarks that all grounds for rejection and objection have been removed by the foregoing amendment. Reconsideration and allowance of this application are therefore earnestly solicited.

The Examiner is invited to phone Michael J. McGowan, attorney for Applicant, 401-841-4736, if in his opinion such phone call would serve to expedite the prosecution of subject patent application.

Respectfully submitted,

PAUL M. DUNN

29 June 1993
